

STICKY MATCH®

INSTRUCTIONS FOR USE

WARNING! Not for consumer use.

RES Pyro products are for professional use only by licensed operators familiar with the use of these products. User assumes all liability. User is responsible for use, storage and transportation in compliance with all local, state and federal laws. Misuse may result in injury and damage to property. Refer to our [Safety Guidelines](#) sheet for further information.

DISCLAIMER

RES Pyro makes no guarantee or warranty. Our products are sold under the condition that the user will evaluate them to determine suitability for their intended use.

Device Description:

Sticky Match® is comprised of a trail of black powder sandwiched between two layers of tape. One side of the Sticky Match® tape has exposed adhesive layer so it can be adhered to the ignition point of a pyrotechnic device.

CAUTION! Sticky Match® burns vigorously and may produce hot fallout.

CAUTION! Do not disassemble or modify. Accidental ignition, fire or injury may result!

Always wear safety glasses when handling pyrotechnics!

APPLICATION

- 1) Unroll Sticky Match® adhesive side towards device and align powder train with ignition point on devices.
- 2) Press Sticky Match® onto each device, fold over ends and secure to each device.
- 3) Pinch Sticky Match® together between each device.
- 4) Continue applying Sticky Match® until all devices are connected.
- 5) Extend Sticky Match® past last device to allow attachment of an electric match.

TEST DEVICE

- 1) Confirm firing system is disabled.
- 2) Connect electric match leads to firing system.
- 3) Ensure device is safe to test. People and property must at a safe distance should an accidental ignition occur. Warn others in the area that a test is taking place.
- 4) Test circuit according to the firing system manufacturer's instructions.
- 5) Disable firing system after testing.

FIRE DEVICE

- 1) Confirm that device can be fired safely.
- 2) Confirm operator can observe device being fired.
- 3) Enable firing system.
- 4) Fire device according to firing system manufacturer's instructions.
- 5) Disable firing system after firing device.

Additional information and guidelines for the use of proximate pyrotechnics can be found in [NFPA 1126: Standard for the use of Pyrotechnics before a Proximate Audience.](#)
